Please have a look at what Chris sent over. This was part of the OGC general this week. OGC is looking for our feedback. I have looked at it and it seems consistent with what I heard in the discussion at the meeting.

(I'm also including Chris

Blunck because there is one issue raised in one of our comments in this document that he may be able to address). In addition to looking at this yourself, can you also make sure this gets to the folks who are more directly handling the asbestos SNUR? Due to my newness to this particular matter, I simply don't yet know who all the players are (and Steve is out today), so if you could help by getting this to them, that would be great. I think it would be best to have OPPT buy-in on this before we, OGC, send anything to Erik next week. If we need to talk about any of this, please just give me a call. Thanks, Chris
